### Description:

A majestic oversize Antique Indo Kerman rug, woven circa 1920, measuring an impressive 14 feet 7 inches by 23 feet 9 inches. This substantial carpet draws its inspiration from the classic Persian Kerman tradition, translated through the skilled craftsmanship of Indian weavers trained in the old-world techniques of the Mughal courts. The rug features a finely detailed allover floral field, centered with a medallion and framed by layered borders—elegantly drawn and harmonious in palette. Soft shades of ivory, faded rose, sapphire blue, and pale celadon create a stately yet inviting presence, ideal for grand interiors and formal entertaining spaces. Woven with high-grade wool and a tightly knotted structure, the piece reflects both durability and refined artistry. Its scale and design make it a statement in any traditional home, private library, or sophisticated hospitality setting. An exceptional find for collectors or designers seeking timeless beauty on a grand scale.
